File Handling CPP:

```
1  //PRN : 2020BTEIT00041
2  //File Handling
3
4  #include<iostream>
5  #include<fstream>
6
7  using namespace std;
8
9  int main()
10 {
11     ifstream myfile;
12     myfile.open("Story.txt");
13
14     char s[100];
15     int c=0;
16     int c2=0;
17
18     while(!myfile.eof())
19     {
20         myfile.getline(s,100);
21         if(s[0]!='A')
22         {
23             c++;
24         }
25         else if(s[0]=='A'&& s[1]==' ')
26         {
27             c2++;
28         }
29     }
30
31     cout<<"Number of lines not starting with 'A' are:"<<c<<endl;|
32
33     myfile.close();
34     return 0;
35 }
```

OUTPUT:

```
Number of lines not starting with 'A' are:3
```
